## PROFESSIONAL SUMMARY

QA/QC and project quality leader with **11+ years on large EPC infrastructure projects** in energy: ~3.9 GW of solar and ~1 GWh of battery storage, including multi-package sites at **Bikaner and Jaisalmer, Rajasthan**. Builds and runs the full quality system: **QMS (ISO 9001:2015), quality plans, ITPs, method statements, SOPs, inspection checklists and calibration matrices**. Drives compliance with drawings, specifications, contracts and codes through inspections, testing, audits and the **NCR → RCA → CAPA** cycle.

Has held quality accountability from **both sides of the contract**: as Owner's Engineer / third-party inspection authority (TQ Cert – Tata Projects), enforcing contractor quality across 1.5 GW+ of parallel construction, and as EPC contractor (Amara Raja Infra), setting up an audit-ready site quality regime. Integrates **HSE into site execution** through risk assessment, permit-to-work, safety reviews and monsoon-readiness planning. Leads and trains site QA/QC teams, and coordinates contractors, consultants, clients and third-party agencies. Lean Six Sigma Green Belt.

## CORE COMPETENCIES

- QA/QC function leadership
- Method statements & procedures
- NCR, RCA & CAPA closure
- HSE risk assessment
- Quality KPIs & MIS reporting
- Contractor & vendor quality
- QMS – ISO 9001:2015
- Inspection & test planning
- Internal & external audits
- Permit-to-work & site safety reviews
- Continuous improvement (Six Sigma)
- Client / consultant / TPI interface
- Quality plans, ITPs & SOPs
- Material inspection, FAT & PDI
- Calibration & inspection records
- Monsoon / site-readiness planning
- Team handling, training & mentoring
- Multi-site quality governance

## PROFESSIONAL EXPERIENCE

### Manager – Electrical Projects · Amara Raja Infra Pvt. Ltd. (EPC) — Aug 2025 – Present

*125 MW / 500 MWh standalone BESS for JSW Renew Energy, Kasaragod, Kerala — Tata Consulting Engineers as Owner's Engineer.*

- Set up the project's site quality control system: an RFI register (**278 entries tracked to closure**), NCR and observation management, root-cause analysis, CAPA reporting and post-pour foundation inspection checklists for civil works. The site stays **audit-ready** for the client and Owner's Engineer.
- Runs material and equipment quality with OEMs and vendors (Gotion, Hopewind, Shilchar, Trisquare, CG Power, KEC, Smart Grid, Fuji Electric), covering drawing approvals, pre-dispatch inspection, site acceptance and defect closure.

### Owner's Engineer – Quality & Inspection · TQ Cert Services Pvt. Ltd. (Tata Projects Ltd.) — Aug 2023 – Aug 2025

*1,034 MW Siyambar / Bandha solar, Jaisalmer, Rajasthan | 500 MW solar + BESS hybrid, Khavda, Gujarat — run in parallel.*

- Client's quality authority over **1.5 GW+ of construction at two sites at once**, protecting owner interests on contractor quality and contractual compliance.
- Reviewed and approved contractor **Quality Assurance Plans, ITPs and field quality procedures**; enforced hold and witness points so stage clearances were based on evidence, not schedule.
- Carried out pre-dispatch inspection and factory acceptance testing at manufacturers' works, preventing non-conforming material from reaching site.
- Issued, tracked and closed **NCRs**, led quality audits and drove contractors through root cause and corrective action; reviewed drawings and ruled on deviation requests.

### Project Lead · Tata Power Renewable Energy Ltd. — Aug 2022 – Aug 2023

*450 MWp / 335 MWac solar, Bikaner, Rajasthan | 300 MW solar, Dholera, Gujarat.*

- Governed construction **quality, safety and progress** across ~750 MW at two sites through site reviews, inspections, milestone verification and punch-list closure up to commissioning.
- Worked with engineering, procurement, contracts, **HSE** and O&M to resolve interface issues and keep multi-package sites on track.

### Project Engineer – Implementation · Solar Energy Corporation of India (SECI) — Oct 2020 – Aug 2022

- Monitored developer and contractor compliance on the 2,050 MW Pavagada Solar Park under a central government scheme, working with government and utility stakeholders. Delivered a 1.4 MWh island BESS in Lakshadweep.

### Electrical Engineer – Execution & O&M · KC Kopar Energy Solutions — Jun 2015 – Oct 2020

- Installed, tested, commissioned and maintained the 25.4 MW solar plant at Cochin International Airport inside a live, security-controlled airport, coordinating site safety and access with airport operations.

## STANDARDS & TOOLS

**Quality:** ISO 9001:2015, QAP/ITP, field quality plans, inspection & commissioning checklists, calibration traceability, NCR/RCA/CAPA, Lean Six Sigma tools; IEC & IEEE standards.

**HSE:** risk assessment, permit-to-work, site safety reviews, monsoon readiness. **Software:** MS Office, MS Project, AutoCAD.

## EDUCATION & CERTIFICATION

**B.Tech, Electrical & Electronics Engineering** (Full-time) SCMS School of Engineering & Technology, Cochin · 2011–2015

**Certified Lean Six Sigma Green Belt** (CLSSGB)
