JUSTIN THOMAS

Technical Manager – Solar PV Quality, Inspection & Compliance | Module FAT / PDI · ISO 9001 QMS · Audits & CAPA

Hyderabad, India (ready to relocate to Faridabad / NCR) | +91 94466 74610 | justinthomas1992@gmail.com | linkedin.com/in/justinthomass | Availability: Immediate

PROFESSIONAL SUMMARY

Electrical & Electronics engineer with **11+ years in solar PV and battery storage quality**, including two years as an **Owner's Engineer / third-party inspection authority** at TQ Cert Services (Tata Projects). Carried out **pre-dispatch inspection and factory acceptance testing of PV modules**, inverters, transformers, switchgear and battery systems at OEM works, checking equipment against IEC-based technical specifications and approved inspection and test plans before release.

Builds and runs the quality systems a testing operation depends on: **ISO 9001:2015 QMS**, QAPs and ITPs, SOPs and method statements, **calibration traceability matrices**, test and inspection records, document control, and the full **NCR → RCA → CAPA** cycle through to audit closure. Experienced in preparing for client and third-party audits, reviewing technical reports and drawings, and working with OEMs, clients and certifying agencies. Lean Six Sigma Green Belt with a track record of tightening processes and documentation.

CORE COMPETENCIES

- PV module inspection, FAT & PDI
- ISO 9001:2015 QMS
- Calibration traceability & records
- Datasheet, BOM & drawing review
- Client & OEM coordination
- Process improvement (Six Sigma)
- Test witnessing & acceptance
- QAP / ITP / inspection checklists
- Document control
- Internal & external audits
- Third-party / certifying-body interface
- Team guidance & training
- IEC / IEEE standards application
- SOPs & work procedures
- Technical report review & approval
- NCR, RCA & CAPA closure
- Technical troubleshooting
- MS Excel, Word, PowerPoint, AutoCAD

PROFESSIONAL EXPERIENCE

Owner's Engineer – Quality & Inspection · TQ Cert Services Pvt. Ltd. (Tata Projects Ltd.) — Aug 2023 – Aug 2025

Third-party inspection and quality authority — 1,034 MW Siyambar / Bandha solar, Jaisalmer | 500 MW solar + BESS hybrid, Khavda.

- Carried out **pre-dispatch inspection and factory acceptance testing at OEM works** for PV modules, inverters, transformers, switchgear and battery systems, keeping non-conforming equipment from being dispatched.
- Reviewed and approved manufacturer and contractor **Quality Assurance Plans, Inspection & Test Plans** and field quality procedures; enforced hold and witness points so every clearance was backed by test evidence.
- Reviewed designs, drawings and technical documents; ruled on deviation and concession requests on technical merit.
- Issued, tracked and closed **non-conformance reports** and led quality audits, driving root-cause analysis and corrective action to closure.

Manager – Electrical Projects · Amara Raja Infra Pvt. Ltd. — Aug 2025 – Present

125 MW / 500 MWh standalone LFP BESS, Kasaragod, Kerala — Tata Consulting Engineers as Owner's Engineer.

- Leads QA/QC and electrical delivery. Set up the site quality control system: RFI register (**278 entries tracked to closure**), NCR and observation management, RCA/CAPA reporting and inspection checklists, keeping the site **audit-ready** for the client and Owner's Engineer.
- Manages the technical interface with OEMs (Gotion, Hopewind, Shilchar, Trisquare, CG Power, KEC, Smart Grid, Fuji Electric), covering drawing and datasheet approvals, pre-dispatch inspection, site acceptance testing and defect closure.

Project Lead · Tata Power Renewable Energy Ltd. — Aug 2022 – Aug 2023

450 MWp / 335 MWac solar, Bikaner | 300 MW solar, Dholera.

- Governed construction quality for ~750 MW of solar through site inspections, milestone verification, test witnessing and punch-list closure, through commissioning.
- Coordinated engineering, procurement, HSE and O&M teams to resolve technical issues and interface problems.

Project Engineer – Implementation · Solar Energy Corporation of India (SECI) — Oct 2020 – Aug 2022

- Monitored developer and contractor compliance with scheme requirements on the 2,050 MW Pavagada Solar Park; delivered a 1.4 MWh island BESS in Lakshadweep.

Electrical Engineer – Execution & O&M · KC Kopar Energy Solutions — Jun 2015 – Oct 2020

- Installed, tested and commissioned modules, inverters, switchgear and transformers for the 25.4 MW Cochin International Airport solar plant. Then ran O&M, with performance monitoring, fault diagnosis and generation reporting, building practical knowledge of how PV modules fail in the field.

STANDARDS & SYSTEMS

Quality: ISO 9001:2015, QAP/ITP development, inspection & test checklists, calibration traceability, NCR/RCA/CAPA, Lean Six Sigma tools.

Technical: c-Si PV modules, inverters, transformers, switchgear, LFP batteries; IEC & IEEE. **Software:** MS Excel, Word, PowerPoint, MS Project, AutoCAD.

EDUCATION & CERTIFICATION

B.Tech, Electrical & Electronics Engineering (Full-time) SCMS School of Engineering & Technology, Cochin · 2011–2015

Certified Lean Six Sigma Green Belt (CLSSGB)

Languages: English, Hindi, Malayalam, Tamil · DOB: 30 Dec 1992
