JUSTIN THOMAS

Senior Manager – Lead Electrical | HV/MV/LT Power Networks to 145 kV | O&M · Testing & Commissioning · Safety

Hyderabad, India (ready to relocate to Mundra, Gujarat) | +91 94466 74610 | justinthomas1992@gmail.com | linkedin.com/in/justinthomass | Availability: Immediate

PROFESSIONAL SUMMARY

B.Tech Electrical & Electronics engineer with **11+ years in large-scale electrical power systems**: ~3.9 GW of solar and ~1 GWh of battery storage, plus **5 years of hands-on plant operations and maintenance**. Deep working knowledge of **HV, HT and LT distribution networks**, covering 145 kV SF_6 breakers and evacuation, power and auxiliary transformers, 33 kV HT panels, AC/DC distribution boards, UPS and battery banks, protection and earthing systems, and EMS/SCADA integration.

Has **inspected and tested equipment at manufacturers' works**, including PV module, inverter, transformer, switchgear and battery factories, so understands solar manufacturing from the inside. Has run preventive and breakdown maintenance, fault diagnosis and performance reporting on an operating plant, and enforced **electrical safety, permit-to-work and audit regimes** on live sites. Leads and develops site electrical teams, works closely with contractors, OEMs and utilities, and applies **Lean Six Sigma (Green Belt)** data-driven methods to reliability and cost.

CORE COMPETENCIES

- HV / HT / LT network operations
- Protection, earthing & lightning
- Preventive & breakdown maintenance
- Electrical safety audits & PTW
- Performance monitoring & MIS
- Lean Six Sigma / cost reduction
- 145 kV switchyard & evacuation
- UPS, battery banks & critical power
- Fault diagnosis & troubleshooting
- Statutory & standards compliance
- Spares, vendor & OEM management
- Team leadership & training
- Transformers, HT panels, ACDB/DCDB
- EMS / SCADA integration
- Testing & commissioning
- NCR, RCA & CAPA
- Contractor & utility interface
- Factory inspection (FAT / PDI)

PROFESSIONAL EXPERIENCE

Manager – Electrical Projects · Amara Raja Infra Pvt. Ltd. — **Aug 2025 – Present**

125 MW / 500 MWh standalone LFP BESS for JSW Renew Energy, Kasaragod, Kerala.

- Leads electrical delivery and QA/QC for one of India's largest storage plants: battery containers, power conversion systems, MV/HV balance of plant, auxiliary power, UPS and the **145 kV evacuation interface**.
- Manages electrical OEMs and suppliers (Hopewind PCS, Shilchar and Trisquare transformers and MV panels, CG Power, KEC cables, Smart Grid EMS/SCADA, Fuji Electric UPS, Gotion batteries), covering drawing approvals, pre-dispatch inspection, site acceptance testing and defect closure.
- Set up the site's electrical quality and compliance system: RFI register (**278 entries closed**), NCR/RCA/CAPA and inspection checklists.

Owner's Engineer – Quality & Inspection · TQ Cert Services Pvt. Ltd. (Tata Projects Ltd.) — **Aug 2023 – Aug 2025**

1,034 MW Siyambar / Bandha solar, Jaisalmer | 500 MW solar + BESS hybrid, Khavda, Gujarat.

- Electrical and quality authority for the owner across 1.5 GW+. Carried out **factory acceptance testing and pre-dispatch inspection at OEM works** for PV modules, inverters, transformers, switchgear and battery systems.
- Approved QAPs and ITPs, enforced hold and witness points, reviewed electrical designs and drawings, and issued and closed NCRs. Led quality audits.

Project Lead · Tata Power Renewable Energy Ltd. — **Aug 2022 – Aug 2023**

450 MWp / 335 MWac solar, Bikaner | 300 MW solar, Dholera, Gujarat | EV charging operations.

- Led owner-side execution of ~750 MW, governing electrical quality, safety and progress through testing and commissioning to COD. Coordinated with engineering, HSE, O&M and the utility.
- Supported EV charging operations alongside the solar portfolio.

Project Engineer – Implementation · Solar Energy Corporation of India (SECI) — **Oct 2020 – Aug 2022**

- Monitored delivery at the 2,050 MW Pavagada Solar Park. Delivered a 1.4 MWh island BESS in Lakshadweep, including storage system integration under remote-site constraints.

Electrical Engineer – Execution & O&M · KC Kopar Energy Solutions — **Jun 2015 – Oct 2020**

25.4 MW solar plant at Cochin International Airport (CIAL): live, security-controlled, 24×7 critical facility.

- Installed, tested and commissioned modules, inverters, **LT/HT switchgear, transformers** and evacuation infrastructure, coordinating with airport operations so power supply was never interrupted.
- Ran plant **O&M for 5 years**: preventive and breakdown maintenance, performance monitoring, fault diagnosis and generation reporting to keep availability high and downtime low.

TECHNICAL & TOOLS

Power systems: power & auxiliary transformers, 145 kV SF_6 breakers, CTs/PTs, 33 kV HT panels, ACDB/DCDB, UPS, protection, earthing.

Standards & tools: IEC, IEEE, ISO 9001:2015; MS Office, MS Project, AutoCAD; DPR/MIS reporting.

EDUCATION & CERTIFICATION

B.Tech, Electrical & Electronics Engineering (Full-time) SCMS School of Engineering & Technology, Cochin · 2011–2015

Certified Lean Six Sigma Green Belt (CLSSGB) · Languages: English, Hindi, Malayalam, Tamil
